Find an authorized BMW dealer , email CustomerRelations@bmwusa.com , or call 1- 800-525-7417 - Learn more about this recall

Description: During air bag deployment in an accident, the driver's front air bag module may produce excessive internal pressure that could cause the inflator to rupture.

Inflator rupture could result in metal fragments striking the driver or other passengers, potentially resulting in serious injury or death.

Remedy: Due to the large volume of new inflators needed to repair vehicles, final owner notification letters will initially be issued by First Class Mail to owners of the highest risk registered vehicles, i.e., oldest models in highest absolute humidity areas (e.g., USA Gulf states). As parts supply increases, all owners of affected vehicles will be notified by First Class mail. When you receive your final letter, you should make an appointment with an authorized BMW center immediately so they can replace the driver's front air bag module. To ensure BMW of North America, LLC has your most recent contact information, please register your vehicle at <http://www.bmwusa.com/myBMW>

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

BMW VIN DECODER

Check your BMW's vehicle identification number (VIN) in seconds.

Your BMW's vehicle identification number (VIN) is a factory-generated serial number that can give you an instant background check on your car. The complete number is 17 digits, but you only need to enter the last seven into our BMW VIN decoder to get an instant report on such information as year, make, model, trim, engine, transmission, and much more. Try it now below.

Your vehicle identification number is listed in

several locations on your BMW. The most common places to check are:

The inside frame/panel of your front door (usually driver's side)

On the dash near the windshield

On your BMW's insurance or registration

Why do a BMW VIN check?

There are many reasons to do a BMW VIN lookup:

Using a VIN decoding tool can help you discover a new or used car's market price.

To make sure you are ordering the right parts, upgrade kits, or retrofit packages for your car. When you know your BMW's exact year, model, make, and other features, you can then find exactly the right upgrades and parts at such online retailers as BimmerTech (<https://www.bimmer-tech.net>), which offers the world's largest selection of DIY kits and parts for BMWs, and ModMyNav (<http://www.modmynav.com>), with its selection of BMW rear-view camera kits. So you can easily add all the features you always wished your BMW had.

If you are considering purchasing a used or pre-owned car, this information will tell you if the car was modified.

Compare two BMWs to see quickly how their features differ, if you are looking to upgrade your existing BMW.
